BIM

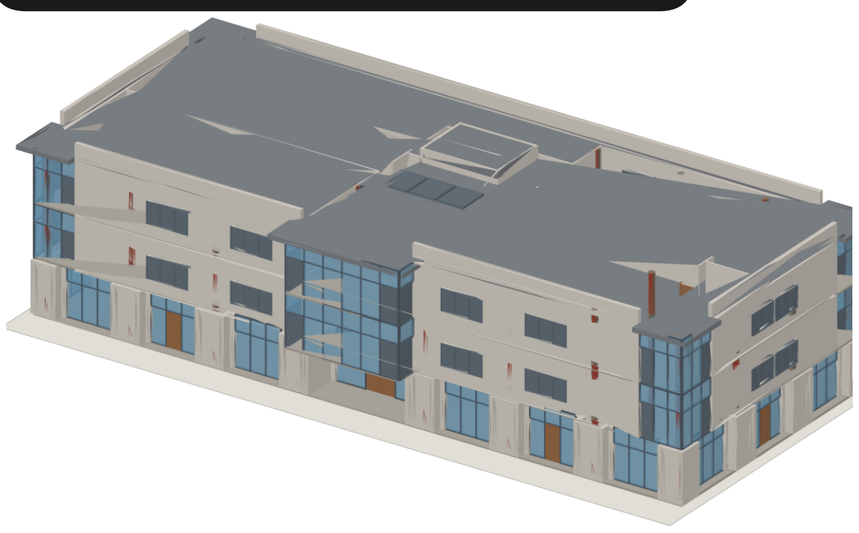

4D·AR

ACTIVITY

BUILD A BUILDING IN AUGMENTED REALITY

Watch a real BIM model go up week by week, right on your phone.

3-STOREY STEEL BUILDING · REVIT

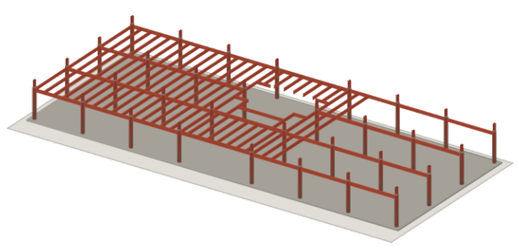

29,104
square feet, 3 storeys

1,771
BIM elements you can tap

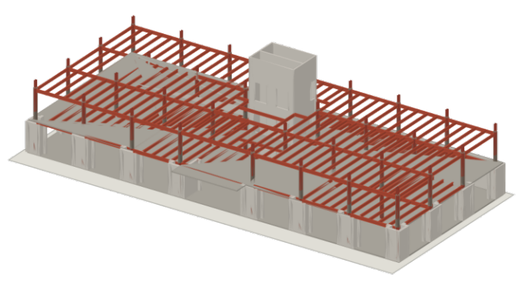

50
scheduled tasks, Jan to May

$3.87M
cost estimate from the model

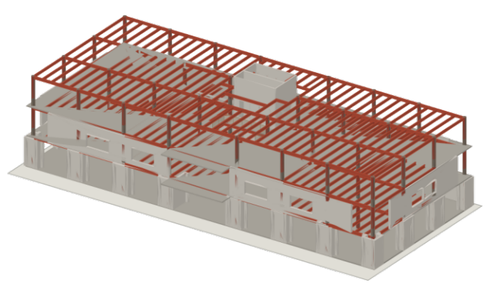

4D CONSTRUCTION SEQUENCE

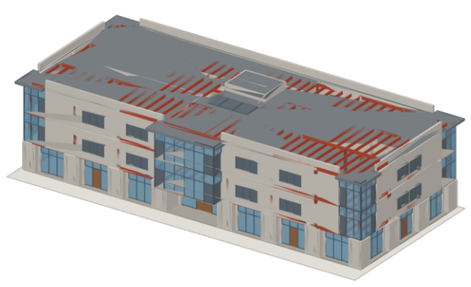

STEP 1 Level 1 frame

STEP 2 Upper floors

STEP 3 Roof & envelope

STEP 4 Complete

HOW IT WORKS

1. **Scan the QR code**
   with your phone or tablet camera, no app needed
2. **Point at the floor plan**
   on our table: the building rises out of the page
3. **Slide through time**
   watch it get built and tap any part to see its cost

CAREERS YOU CAN EXPLORE

Construction Management · BIM & VDC · Estimating · Scheduling
